DATA INTEGRA SOLUTIONS - SIMPLE BUSINESS PLAN

100% Malaysian-Owned | AI & Managed IT for Malaysian SMEs

Version: 1.0 - Simple Edition

Date: 21 August 2026

Company: Duta Integra Solutions Sdn Bhd

Headquarters: Cyberjaya, Malaysia

Website: <https://dutaintegra.my>

Contact: hello@dutaintegra.my | WhatsApp: +601154034051

Founded: 2021

****IP Ownership Declaration:**** All services, products, platforms, codebases, and intellectual property described herein are ****100% developed, owned, and maintained by Duta Integra Solutions Sdn Bhd****. No white-label reselling. No third-party franchise. All client deliverables are built on our proprietary frameworks.

1. EXECUTIVE SUMMARY

Duta Integra Solutions is an AI-first IT partner based in Cyberjaya, making enterprise-grade technology accessible to Malaysian SMEs. We solve a critical gap: SMEs need both reliable IT support and modern AI capabilities, but usually have to hire two separate expensive vendors who don't talk to each other.

We offer one partner, three monthly retainers, built entirely on our owned technology stack.

Traction:

- Founded 2021, 100% Malaysian-owned
- 5+ client projects shipped: Leish, Eastelpro, AGMX, DutaConnect
- 3 core MRR retainers live with transparent pricing
- PDPA-compliant delivery, month-to-month contracts (no lock-in)
- Stack: Vercel (ap-southeast-1, <40ms MY latency) + Neon PostgreSQL + Custom Admin

The Ask: Scale MRR from 3 retainers to 30 retainers in 12 months through Merdeka promo + content + referral engine.

2. COMPANY OVERVIEW

Mission: Make AI and enterprise-grade IT accessible to every Malaysian SME, not just KL corporates.

Vision: Become Malaysia's most trusted AI + IT partner for SMEs by 2028 - 100 retainers, 10 owned products.

Values:

- Clarity over jargon - Plain language, no tech theatre
- Partnership, not transaction - Long-term retainers, not one-off jobs
- Speed with substance - Proposal in 3 working days, built to last
- Proudly local - We understand PDPA, SST, ePerolehan, SME culture

Location: Cyberjaya (tech hub) + Hutan Melintang, Perak (operations)

3. PRODUCTS & SERVICES - 100% OWNED BY US

A. OWNED PRODUCTS (Our IP - Not Client Work, We Own It)

All products below were conceived, designed, coded, and are maintained by Duta Integra Solutions.

Product	What It Is	IP Status	Business Model

B. OWNED SERVICES (Retainers - All Delivered by Our Team)

Entry Point:

- Business Website: RM 2,500 one-off (Merdeka: RM 775) - Up to 8 pages, mobile-first, WhatsApp capture, SEO, Maps

Monthly Retainers (Core MRR):

- Foundation - RM 2,000/mo (Merdeka first month RM 620)
 - 24/7 helpdesk & monitoring, Cloud infra & backups, Security monitoring & response, PDPA compliance support, Monthly health report, Dedicated engineer
- Growth - RM 5,300/mo (Most Chosen) (Merdeka first month RM 1,643)
 - Everything in Foundation (RM 2,000) + Sales Automation (RM 1,500) + Content Creation (RM 1,000) + Ads Management (RM 800) + Monthly performance report + Dedicated account manager
- AI Partner - From RM 8,300/mo (Merdeka first month RM 2,573)
 - Everything in Growth (RM 5,300) + Dedicated AI dev (RM 3,000) + Custom chatbots & automation + 1 AI system per half-year + Quarterly strategy reviews

A La Carte (Also Owned):

- Website Care: From RM 150/mo
- Sales Automation: From RM 1,500/mo
- Content Creation: From RM 1,000/mo
- Ads Management: From RM 800/mo
- Custom AI Systems: From RM 18,000 one-off (Merdeka RM 5,580) - AI Lead Bot, Internal Knowledge Base, Custom Web App
- Business Intelligence Dashboards: Launching Next

Every line item is delivered by our Cyberjaya team. No outsourcing of core IP.

4. MARKET & CUSTOMERS

Primary Target: Malaysian SMEs (RM 300k - RM 50M revenue) - Traditional brick-and-mortar (retail, services, manufacturing) + Fast-paced startups + Cooperatives (Koperasi)

Pain Points We Solve:

- IT breaks, no one to call. Fear of tech complexity.
- Leads lost in WhatsApp threads and spreadsheets.
- Worried about PDPA fines and data leaks.
- Agencies charge high fees, disappear after launch.

Our Pitch:

- Traditional SME: "Zero Maintenance, Local Speed, WhatsApp-first"
- Startup: "Git-like DB branching, RM 0 infra cost to start, ship in days"
- Cooperative: "Akta Koperasi 1993 compliance automated"

Market Size: 1.17M SMEs in Malaysia (97.4% of businesses). Even 0.1% = 1,170 clients. At RM 2k-8.3k MRR, TAM is huge.

Competitors: Local IT shops (no AI), Digital agencies (no IT), Freelancers (no PDPA). Our edge: AI + IT combined, one vendor, PDPA-native, month-to-month.

5. BUSINESS MODEL & PRICING

Model: MRR-first, not project-first. Every engagement is monthly recurring. One-off websites are the entry door to retainers.

Pricing Logic:

- Individual services priced separately but bundled retainers cheaper than sum.
- Month-to-month, no lock-in = trust signal.
- Free initial IT audit + proposal in 3 working days = low friction.

Merdeka Promo (Growth Lever):

- August: 69% off first month + one-off projects
- September: 63% off first month
- Creates urgency, lowers barrier, fills pipeline for Q4.

Example Unit Economics (Growth Tier):

- List: RM 5,300/mo. Cost to serve: ~RM 2,000 (engineer time + tools + Vercel/Neon which is RM 0 free tier to start). Gross Margin: ~62%.

6. GO-TO-MARKET (Simple)

- Free Audit Funnel: Website CTA -> Free IT audit / AI readiness -> 3-day proposal -> Close on Foundation/Growth
- Merdeka Campaign: Social + WhatsApp broadcast + email to SME databases
- Case Study Selling: Leish (70% fewer enquiries), Eastelpro (99.9% uptime), AGMX (98% compliance) as proof
- WhatsApp-First: All CTAs go to WhatsApp, admin dashboard has 1-click WhatsApp reply to leads
- Referral: 1 month free for every referred client who stays 3 months

7. FINANCIAL SNAPSHOT (12-Month Target)

Assumptions (Conservative):

- Start: 3 retainers (~RM 10k MRR)
- Goal: 30 retainers in 12 months
- Mix: 15 Foundation (RM 2k), 10 Growth (RM 5.3k), 5 AI Partner (RM 8.3k)
- MRR at 30: $(152k) + (105.3k) + (5 \times 8.3k) = 30k + 53k + 41.5k = \text{RM } 124,500 \text{ MRR}$
- ARR: RM 1,494,000
- One-offs (20 websites RM 2,500 avg + 5 AI systems RM 18k) = RM 50k + RM 90k = RM 140k

Total Year 1 Revenue Target: ~RM 1.6M with 60%+ gross margin due to owned IP and zero-cost infra (Vercel Hobby + Neon Free Tier -> scales to paid only when needed).

Costs: 3-5 staff (Tech Lead, IT Support, Content/Ads), Tools (Resend, domain, GA4 - minimal), Office (Cyberjaya remote-first).

8. TEAM

- Founder & CEO: Strategy, BD, client relationships
- Tech Lead: AI dev, architecture, Vercel/Neon/Next.js stack owner
- IT Support Specialist: Managed IT, monitoring, client support
- (Hiring) Sales & Account Manager, Content Specialist

All core IP development is in-house.

9. ROADMAP - NEXT 12 MONTHS

Q3 2026 (Now): Merdeka promo launch, close 10 retainers, ship DutaConnect Beta, launch BI dashboards

Q4 2026: 20 retainers, launch AGMX v2, referral program, case study videos

Q1 2027: 30 retainers, hire 2 more, introduce annual prepaid discount (2 months free)

Q2 2027: Productize Eastelpro & Leish as standalone SaaS, explore grants (MDEC, SME Corp)

10. RISKS & MITIGATION

- Risk: Client churn (month-to-month). Mitigation: Monthly health reports, dedicated engineer, sticky AI systems.
- Risk: LLM cost spikes. Mitigation: Our Admin Dashboard has AI Token Cost-Cap safeguard (daily cap, auto-pause at 50k tokens).
- Risk: Dependency on founders. Mitigation: Document SOPs, custom dashboard with RBAC (admin/staff/client).

CONCLUSION: Duta Integra Solutions is not an agency reselling tools. We are a product company that sells retainers. Everything we sell, we built and own. For Malaysian SMEs, that means lower cost, faster speed, PDPA safety, and one partner who stays after go-live.
