Merdeka 2026: 69% Off First Year

CONFIDENTIAL - Investor Pitch Deck -

THE PROBLEM

1.17M Malaysian SMEs are digitally left behind

- 97.4% of businesses in MY are SMEs, contribute 38% GDP, but only 28% have website, 5% use AI
- IT breaks, no one to call - 60% cite 'lack of reliable IT support' as top barrier
- Leads lost in WhatsApp chaos - no CRM, no follow-up
- AI feels expensive & foreign - agencies charge high, disappear after launch
- PDPA fines up to RM1M (2024 amendments) - SMEs scared, no audit
- Forced to hire 2 vendors: IT shop (no AI) + Agency (no IT, no PDPA)

Result: Downtime, data leaks, missed sales, failed digitalization grants

THE SOLUTION

One Partner. Three Retainers. All Owned IP.

Duta Integra Solutions is AI-first Managed IT partner based in Cyberjaya

COMPETITIVE ADVANTAGE - OUR MOATS

Why We Win vs IT Shops, Agencies, SaaS, Freelancers

- 1. OWNED IP STACK: Competitors resell Hostinger/GoDaddy/white-label CRM. We own. Margin control.
- 2. AI + IT COMBINED: One vendor, simpler, cheaper, coordinated. No one else in MY SME space does both well.
- 3. PDPA-NATIVE: Every product has consent logging, audit trail. Built for MY law, not US.
- 4. WHATSAPP-FIRST: 1-click WhatsApp action, WhatsApp chatbots, capture. MY runs on WhatsApp.
- 5. ZERO-COST INFRA: Vercel+Neon free tier = RM0 infra to start, competitors RM500/mo. Pass savings.
- 6. NICHE DOMINANCE - AGMX: Only AI-powered AGM OS for Koperasi in MY. Akta Koperasi 1993 complex, we coded engine.
- 7. MONTH-TO-MONTH TRUST: No lock-in vs competitors 12mo. Win trust, retain via value.
- 8. PROOF PRODUCTS: Leish, Eastelpro, AGMX live, not slides. Client can preview.
